**Leland R. McFadden**, DDS, MSc, FRCD(C) | Assistant Professor; Oral and Maxillofacial Surgery, Department of Dental Diagnostics and Surgical Sciences, College of Dentistry, Rady Faculty of Health Sciences, University of Manitoba

**Blair Dalgliesh**, BSc, DMD, M Dent, FRCD(C) | Lecturer; Oral and Maxillofacial Surgery, Department of Dental Diagnostics and Surgical Sciences, College of Dentistry, Rady Faculty of Health Sciences, University of Manitoba

**Tim Blight**, DDS, FRCD(C) | Private Practice: Winnipeg, Manitoba, Canada

## COURSE OVERVIEW:

Oral and maxillofacial surgeons typically engage in and represent the community standard in certain areas of facial trauma, facial deformity correction, reconstructive facial surgery, temporomandibular joint management and surgery, head and neck infections, and management of pathologies. However, the general dental practitioner should be competent in performing basic surgical procedures which commonly occur in their practice settings. Due to anesthetic concerns, past experiences with surgical complications, or lack of training, many general practitioners hesitate to perform basic oral surgery procedures.

This innovative, hands-on course will focus on helping general dentists develop or refine essential skills that are critical for successful performance of oral-surgical procedures. The program includes mini-lectures on oral surgery topics that are relevant to the general practitioner, as well as a hands-on component using animal models. Faculty experts will demonstrate techniques and then guide participants to improve their skill in basic oral surgical procedures. Upon completion, course participants should be more surgically competent and be able to apply these improved skills into everyday patient care with confidence.

**SATURDAY, MARCH 11, 2017**

**6 HOURS CDE CREDIT**

### LOCATION:

D112A Alpha Omega  
College of Dentistry  
780 Bannatyne Avenue  
Winnipeg, MB  
University of Manitoba

**REGISTRATION: 8:30 AM**

**LECTURE: 9:00 AM – 3:00 PM**

### REGISTRATION FEE:

Full Day: \$450

Lecture only (AM): \$200

Continental breakfast and lunch will be provided.

### REGISTRATION DEADLINE:

**February 28, 2017**

# IN PURSUIT OF CLINICAL EXCELLENCE:

## A SPECIAL PROGRAM FOR DENTAL HYGIENISTS

SATURDAY, MARCH 11, 2017

### LEARNING OBJECTIVES:

Upon successful completion of this course, participants should be able to:

- Design, perform and close a surgical flap.
- Determine surgical difficulty and assess risk in extraction cases.
- Assess, prevent and manage post extraction oro-antral communication.
- Mitigate the risk associated with a missing tooth following extraction.
- Manage post extraction bleeding in patients on blood thinners.
- Achieve successful anesthesia in patients who are difficult to freeze.
- Perform simple soft tissue biopsy and avoid delays in diagnosis.

### AGENDA:

08:30 - 09:00	Registration
09:00 - 12:00	Lecture: Interactive Live Mini-Lectures and videos
12:00 - 13:00	Lunch
13:00 - 16:00	Lecture and Hands-on workshop: Hands-on instructions Demonstration/workshop/simulation/laboratory and clinics

### REFUND POLICY:

A registration refund will be made upon written request prior to February 25, 2017. A \$35 administration fee will be retained. No refunds will be made on or after February 25, 2017
