

BRANDON PRIMARY CARE FALL CONFERENCE

VICTORIA INN HOTEL & CONVENTION CENTRE
3550 VICTORIA AVENUE | BRANDON, MANITOBA

NOVEMBER 17 & 18, 2017

CPD Medicine Program

Rady Faculty of
Health Sciences

UNIVERSITY
OF MANITOBA

COURSE OBJECTIVES

At the conclusion of this educational activity, the participant should be able to:

- Provide an overview of the factors that contribute to difficult encounters with patients
- Review some general strategies for promoting more positive encounters with patients
- Discuss essential medications in palliative care
- Examine the risks of common geriatric pain medications
- Explore realistic interdisciplinary pain control strategies to decrease medication
- Contrast the presentation of Alzheimer's type of dementia with other common forms of dementia
- List strategies for gathering clinical data needed to diagnose common forms of dementia
- Identify the distortions in thinking about depression and expand repertoire of treatment options
- Develop a plan of follow up for the maintenance of depression recovery
- Identify syndromes of psychosis in the elderly and find treatment options aside from use of D2 antagonists
- Encourage the family in treatment plans and developing alliances
- Explain how primary care providers can address their patients' needs in responding to Medical Assistance in Dying (MAID) through conversations on eligibility criteria, implementation and clinical and ethical challenges

AGENDA

FRIDAY, NOVEMBER 17, 2017

Workshop #1: 1300-1500 | Splinting and Taping Techniques for Minor Injuries | Facilitator: Mike Templeton

Participants will review the most common soft tissue injuries presenting to primary care professionals. They will learn how to differentiate injuries that can be safely managed through splinting and taping and how to discuss this with their patients. They will review the most up to date materials and techniques available to the medical expert and will demonstrate how to perform common taping and splinting techniques.

Workshop Objectives:

- Identify the most common soft tissue sports injuries
- Use best medical evidence to differentiate which injuries can be managed by taping and splinting and discuss this with their patients
- Identify current splinting and taping materials that are available to primary care clinicians
- Demonstrate how to tape a splint various joints such as ankles, wrists, and shoulders on a simulations model

Fees: \$175 (non-refundable)

Study Credits: 4.0 Mainpro+

CFPC GROUP LEARNING MAINPRO+ CERTIFIED

This Group Learning program meets the certification criteria of the College of Family Physicians of Canada and has been certified by the CPD Medicine Program, University of Manitoba for up to 4 Mainpro+ credits. (ID: 185403)

SATURDAY, NOVEMBER 18, 2017

Fees: Physicians \$200 | Nurse/Other Health Care Professionals \$100 | Residents / Students \$35

OVERVIEW

The Brandon Primary Care Conference is designed to provide a wide range of timely and challenging topics relevant to physicians working in outpatient and inpatient settings. The main program objectives are to enhance clinical competence and improve patient care. This program will feature a combination of lectures, case studies and hands-on activities.

During the conference, participants will have the opportunity to:

- Acquire or solidify “hands-on” skills that they can incorporate into their practice
- Acquire and review clinical knowledge relevant to full family medicine practice
- Meet and network with colleagues

Program is of interest to: family physicians, family medicine residents, nurse-practitioners, nurses, and other health professionals working in urban or rural settings.
