

# QUALITY MEASUREMENT FOR LEADERSHIP AND LEARNING

## PLI Physician Leadership Course

### Overview

Through this course, you will learn about data and how to turn it into information and knowledge that will help you to improve your system and patient outcomes. The highly interactive teaching methods and many hands-on exercises in this course will teach you the best ways to obtain data, how to analyze data with easily understood statistical methods that are different from traditional statistics, and how to effectively display data. You will leave better equipped to understand quality measures and how to use them in both your leadership role and quality improvement projects.

**3-day Virtual Course • Mornings • March 10, 11 & 12, 2021**

Time will be confirmed closer to the event date and are subject to change.

### Who should take this course

This course is open to anyone, particularly **new or aspiring physician managers & leaders**

### Learning objectives

- Demonstrate an understanding of the relationship between measurement for research, accountability and quality improvement.
- Critically discuss measurement frameworks.
- Create conceptual and operational definitions for measures of quality.
- Identify and discuss different sources and methods to obtain data.
- Identify and discuss underlying key concepts for using measurement and data in your leadership role.
