

SOCIAL SYSTEMS LEADERSHIP: THRIVING IN COMPLEXITY

PLI Physician Leadership Course

Overview

This course helps with the understanding and practice of systems thinking in an interactive way and makes large complex systems more understandable to live in and influence. Systems thinking will come alive through exercises, learning through a simulated organization and working on a case action plan.

2-day Virtual Course • Full days • January 15-16, 2021

Time will be confirmed closer to the event date and are subject to change.

Who should take this course

This course is open to anyone, particularly **new or aspiring physician managers & leaders**

Learning objectives

- Examine and discuss the complexity of the Canadian system for health and disease care.
- Develop and apply skills in sense-making to guide decisions in complicated, complex and chaotic systems.
- Determine and discuss what leadership agility skills are needed in different systems.
- Recognize and influence underlying archetypes and social systems patterns causing resistance to systemic changes.

Faculty: Dr. Johny Van Aerde and Phil Cady
