

Scenario: Young mother currently 7 months pregnant, and being watched closely by her medical team because of her history of high risk birth. KM shared that she had a still birth two years ago.

- KM shared that during her first pregnancy, things were going well, when she began to have pain and was rushed to the hospital, and unfortunately the baby died.
- She talked about her grief from the loss of the first pregnancy, and her fears during her current pregnancy.
- Her and her husband grieved in their own way, which brought some separation in their relationship.
- She has strong family and community support.
- She is thankful for the overwhelming support received from her medical team.
- She will be placed on bed rest for the remainder of the pregnancy to ensure all precautions are taken to ensure a safe birth.
