

RS 1310

Married; no children.

She & her husband live on a rural acreage and they have a farm.

RS finds joy in normal, everyday life with her husband....morning coffee on the deck etc.

Has a dog, 2 outside cats & chickens.

There is a lot of work to run the farm and she worries about her husband having to do all the work by himself. She wonders if he's masking his fatigue & worry. It's difficult not knowing how long she'll be away from home.

She is normally very active, likes going for walks. Used to play soccer. She finds it difficult that her physical abilities are limited @ this time.

States she is easy-going; puts on a brave face & relies on herself for strength.
